

# Shades of Yesteryear

Who says "Ya can't go back"?

Remember your first pro drumkit? The majestic, classic look of sparkles and pearls...gleaming chrome on trademark die-cast lugs...lighter-weight hoops and mounts. And that SOUND! Living, breathing tone from lightweight maple/poplar shells and gentle, rounded bearing edges. It was tough to make them sound bad! Now, you can recapture your past with **Frondeilli USA** drums. Sporting features such as "Neo-Classic" chromed die-cast lugs, 1.6mm triple-flanged hoops, genuine Keller USA Vintage Maple/Poplar shells, rounded bearing edges, and clear shellacked interiors, all topped off by Evans USA heads and the finest pearl finishes available, you'll drive your time machine back to that classic era in true vintage style, with miles of tone and feel under the hood.\*

*Classic hot-rod looks AND sound...today!*

**After all, isn't THIS what you've ALWAYS wanted?**

**Classic Outfit**
