

# **Frondelli** THE DRUMS REMAIN THE SAME!

## LED FOOT **OUTFIT**

It has been called "Hammer Of The Gods"...a mighty drumming force to be reckoned with. Born into music in the late 60's, it is, arguably, the biggest beat of all time. An instinctive, urgent drive pushing blazing guitars, melodic bass lines and raw vocals to their limits. And that SOUND!!! Big, warm, massive, industrial-strength drum tone with a biting attack that could only be provided by oversized drums and stratospheric tuning, played hard. The man behind the beat may be gone, but his legacy lives on forever, particularly in the form of a current roots-rock renaissance. We cannot turn you into the legend, but this faithful recreation of the Master's tools will give you a good head-start. **Rock & Roll!!!!**
